Council approves public-access reforms

Acting on the recommendations of Councilmembers Donna Frye and Carl DeMaio, the San Diego City Council has adopted several reforms intended to make Council proceedings more accessible.

The reforms, approved March 2, include mandates for at least six night meetings per year, and the selection of Council President to take place annually in early December – *after* any newly elected members have been seated.

Also, Tuesday Council meetings will begin with the Pledge of Allegiance. A proposal that would have required the docketing of any item requested by three Councilmembers was not enacted, leaving docketing to the discretion of Council President unless an item is requested by four or more members.

Frye and DeMaio championed the proposals after co-hosting a series of community meetings last year to elicit feedback and suggestions from the public.

In addition to the reforms approved last month, several other proposed changes in Council practices were referred to the Council's Rules, Open Government and Intergovernmental Relations Committee for more discussion.

"It is crucial that we continue to push for ways to increase the public's access to the City Council," Frye said after the March 2 meeting. "The changes passed today are a great start, and I'm looking forward to the next round of reforms in our open-government efforts."

For more information on the Council reforms adopted and proposed, visit the District Six Web site, <http://www.sandiego.gov/citycouncil/cd6/>.

Navy replacing fuel pipeline in MV Preserve

Navy contractors are digging up and replacing corroded segments of a jet-fuel pipeline that traverses the San Diego River and the Mission Valley Preserve.

The underground pipeline, which is 8 inches in diameter and extends from the Naval Base Point Loma to the Miramar Marine Corps Air Station, was laid more than 50 years ago. It runs north-south across the western part of the 52-acre nature preserve east of Interstate 5 and is buried 7 feet under the bedrock of the San Diego River.

Navy officials and their civilian contractors said the pipeline is checked a minimum of every five years internally and externally, and that no fuel leaks have been detected in or near the river. However, they said 15 segments of pipe totaling 16.5 miles have deteriorated to the extent that they had to be replaced to maintain their integrity.

Fuel flows were shut down more than six months ago for the repairs, contractors said.

The pipe section being replaced in the Mission Valley Preserve is about 200 feet in length, between Friars Road and the river's north bank. Work began in early March and is expected to be completed by May.

The project is being closely monitored by archaeologists and biologists, said Shawn McGee, senior

(Continued on Page 2)

Navy contractors used pile drivers to install steel plates intended to keep runoff away from a section of pipeline being replaced near the San Diego river.

(Continue from Page 1)

inspector for the Navy's general contractor, Campos EPC of Lubbock, Texas. He said those consultants are charged with making sure the work -- which includes loud pile-driving and other heavy equipment -- does not harm the preserve's clapper rails and other protected species, whose nesting season typically begins in mid-March.

Work in that area had been scheduled to begin in December and be done by now but was delayed, McGee said. A Navy liaison said 12 of the 15 sectional repairs have been completed.

Asserting that the pipe repairs were urgently needed to prevent leakage, the Navy obtained clearances several months ago from the California Regional Water Quality Control Board and San Diego's Development Services and Park and Recreation departments. Councilmember Frye did not learn of the project until after construction in the preserve was under way.

Myra Hermann, a Development Services senior environmental planner, said the federal project is exempt from public-notice and review provisions of the California Environmental Quality Act. She said the Navy assured the city it would provide project details to the San Diego River Park Foundation, a non-profit organization that coordinates river-improvement projects and programs with the city, regional agencies and environmental groups.

Councilmember Frye first learned of the project when the foundation's executive director, Rob Hutsel, brought it up at the March 4 meeting of the Mission Valley Planning Group. Frye's staff representative for Mission Valley attends those meetings.

Chris Zirkle, San Diego Park and Recreation Department deputy director, apologized for not providing the council district a "courtesy notice" before any work got under way.

"From a regulatory perspective there's no notice requirement," he said, "but . . . I can see how I might have underestimated the importance of this project to your office."

Mesa College's new parking structure gets A+ grade

Relief has finally arrived for parking-strapped Mesa College as a 1,100-space parking structure on the east side of campus officially opened on March 11 to great fanfare.

Nearly 20 years in the making, the \$31-million structure will ease parking pressure on residential streets around the 22,000-student facility, which straddles the boundary of Linda Vista and Clairemont. Construction was funded by a voter-approved bond.

"I am grateful to the planning groups from both Linda Vista and Clairemont who worked cooperatively with the City Council and the (Community College) District," Frye said at the ribbon-cutting ceremony.

The parking structure houses a new campus police station and one of two new MTS transit stops slated to open later this year at Mesa.

College officials -- including President Rita Cepeda, district board President Rich Grosch and Chancellor Constance Carroll -- proudly noted that the structure is expected to get the highest certification from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) program.

Environment-friendly features include the structure's use of natural light; recycled materials for interior finishes, concrete and masonry; ultra-efficient heating and air-conditioning; low-water landscaping; rooftop solar panels; and parking for alternative-fuel vehicles to be used by campus police.

With other dignitaries looking on, Councilmember Frye hailed the opening of Mesa College's new, environmentally advanced parking structure

Community group launches new program: “Taking It to the Streets”

Since the inauguration, President Obama has stressed the importance of community volunteerism. This call falls perfectly in line with a new program being launched by Rebuilding Together San Diego.

“Taking It to the Streets” will allow residents to address community needs directly without having to wait for city or county resources. The goal is to encourage people to take responsibility for their own neighborhoods and affect change for themselves.

Rebuilding Together San Diego has a warehouse full of rakes, shovels, brooms, gloves, trash bags and painting materials ready to loan out to community or youth organizations for debris clean-ups, graffiti paint-outs, easement plantings or other neighborhood beautification projects.

More information is available at www.rebuildingtogethersd.org/ or (619) 231-7873.

Presidio Little League opens 50th season with fanfare

Youngsters sprinted home from a balloon-canopied third base as coaches introduced them by name — and sometimes-humorous baseball nicknames — to the audience.

Scores of youths and their coaches, families and friends were back at Mission Valley’s Sefton Field Feb. 28 for the festive opening ceremonies of the Presidio Little League’s 50th season.

The league consists of 16 teams of boys and girls, ages 5 to 16. Officials were joined by some of the league’s original founders in urging the kids to be good sports, have fun and play ball!

Jack Hacker (center), who helped found the Presidio league 50 years ago, addressed the crowd in the season-opening festivities.

Hailing a trailblazer for equal rights

Staff members Kristin Camper and Mary Ann Kempczenski flanked Councilmember Frye and women's-rights pioneer Gloria Steinem (second from right) at the Women's Day Celebration last month. Steinem's appearance in Hillcrest was sponsored by the San Diego Center on Policy Initiatives. Frye declared March 6 to March 13 as "Gloria Steinem Week" in the Sixth District of the City of San Diego.

Linda Vista hosts annual multicultural celebration of diversity

Linda Vista, which proudly calls itself "the heart of San Diego," will become an international crossroads on Saturday, April 25 with the 24th-annual Linda Vista Multicultural Fair.

Music, food, arts and crafts, Asian and Latino film screenings and a parade will all highlight the wonderful cultural diversity of this remarkable community. The fair, which runs from 10 a.m. to 5 p.m., is centered on Linda Vista Road between Comstock and Ulric streets.

Family-friendly features include:

- **The World Arts Village**, where multicultural folk artists and crafts makers present and sell their works, including pottery, textiles, jewelry, glasswork, drawings and paintings. Artisans will also demonstrate their crafts.
- **The Housing Pavilion**, where experts in housing issues will provide information and answer questions from homeowners and renters, especially regarding affordable housing and the current foreclosure crisis.
- **The Kid Zone**, where magicians, clowns and hat makers are among the many surprises awaiting youngsters.
- **The Education Lane**, where educational institutions and youth-based community initiatives explain to parents and youths the myriad educational opportunities available locally; the educational booths are sponsored by the University of San Diego's Center for Community Service-Learning.

For more information, visit www.lindavistafair.org or call (858) 278-0771.

Kearny High has free computers, training

Kearny High has become the first — and only — school in the San Diego Unified District to benefit from a program offering free computers and instruction. Sponsored by the San Diego Futures Foundation and the San Diego Broadband Initiative, the program will provide computers for up to 100 low-income families of Kearny students between now and June. The recent training session pictured here was jammed with eager high-schoolers, younger siblings and parents. Together they are learning the wonders of the Internet and the power of personal computers.

From activists to HEROs

Donna was invited last month to talk about her experiences as a community organizer in a UCSD panel discussion sponsored by the university's Human and Earth Rights Organization (HERO). The panel featured activists who shared with the students what inspired them to get involved in their communities. Pictured (from left) with Donna are Nelisse Muga, Enrique Morones, Martha Sullivan, Fernando Suarez del Solar, Marjorie Cohn, Tanja Winter and Jeeni Criscenzo. HERO is a non-profit organization dedicated to educating the public about social and environmental issues.

City pedaling bicycle master plan update

If you ride a bike – or for that matter, drive a car – the City could use your input on a bicycle master plan update that's under way.

The goal is to make cycling a more practical and convenient way to get around. With help from private consultants, City planners are assessing all kinds of issues affecting bicycling in San Diego, such as development, public involvement, facilities design, safety, education and funding.

A public workshop is planned in June, but in the meantime anyone can learn more and offer feedback at <http://www.sandiego.gov/planning/programs/transportation/mobility/bicycle.shtml>.

Additional information is available from the Planning Department project manager, Shahriar Ammi, at (619) 236-6576, sammi@sandiego.gov, or the Alta Planning + Design consultant project manager, Sherry Ryan, at (619) 269-6043, sryan@altaplanning.com.

Donna salutes Clairemont Hilltoppers Little League in 53rd season

March 7 was opening day for the Clairemont Hilltoppers Little Leaguers. The league is celebrating its 53rd season this year. At 7:45 a.m. the T-ball teams took the fields for the first time, then all the teams and fans gathered for opening ceremonies at 9 a.m. on the Padres Field at the Cadman Recreation Center. After offering a few words of encouragement to all the teams, Donna was invited to throw out the ceremonial first pitch. She chose instead to give that honor to one of the players, Brianna Leigh-Pink of the Red Sox. The event had around 250 people in attendance, with a great BBQ lunch provided by Outback Steakhouse Restaurant. Donna and her staff wish all the teams a great season, and go Hilltoppers!

Brianna Leigh-Pink threw the opening pitch.

Donna shared a hug with Liam McLaughlin, one of the happy Hilltoppers playing this year.

Kids art contest offers cool prizes for posters on sun safety

Competition open to students nationwide; entries due April 13

Did you know too much sun can lead to skin cancer, eye problems and immune problems? Kindergarten through eighth-grade students in San Diego and nationwide can help raise awareness about sun safety and win prizes by entering an annual poster contest co-sponsored by the U.S. Environmental Protection Agency.

Hand-drawn entries are due by April 13 with an attached official entry form, which, along with other information, can be found at <http://www.shadefoundation.org/index.php/programs/2009-poster-contest>. Posters should be original and creative in showing ways to raise sun safety awareness.

The annual contest is sponsored by the SHADE Foundation of America, WeatherBug Schools and the U.S. EPA's "SunWise" skin safety program. Contest voting will begin in late April, and the national winner will be announced May 22. Winning posters will receive state and national prizes, with the top national winner receiving a family trip to Disney World and a WeatherBug Tracking Station for his or her school.

More information about the EPA program and poster contest can be found at <http://www.epa.gov/sunwise/>

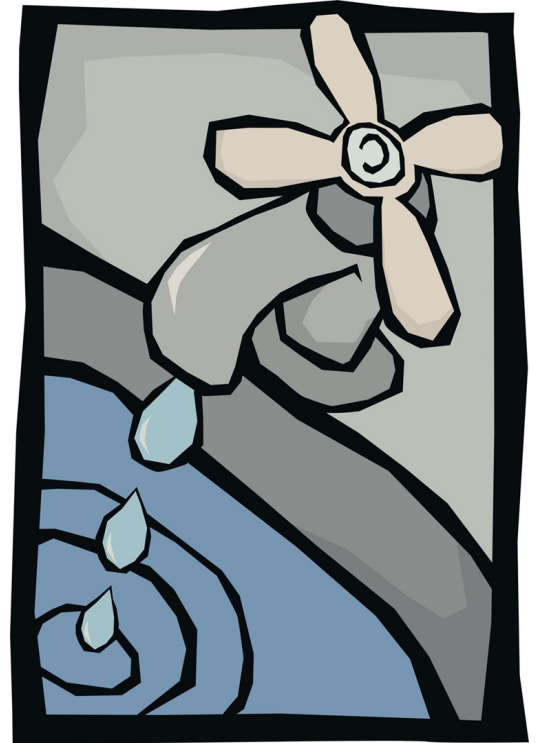

Some advice on how not to “spring” into wasting water

As temperatures and daylight hours increase heading into spring, so too does the temptation to use more water around our homes. Since San Diego remains in the midst of a water crisis, it is important to resist the temptation to use more water. In fact, the change in seasons is the perfect time to change our watering habits and to recommit ourselves to conservation every where we can.

“We see it every year,” said Chris Robbins of the city’s Water Conservation Program. “With more daylight, there tends to be an increased consumption of water. This could be due to various reasons, including more time outdoors doing yard work as the sun sets a little later each day. Since the majority of our water is used for outdoor irrigation, the important tip for this spring is to check your plants and lawns before turning on the hose or sprinklers. They probably don’t need as much moisture as you think, and you may be able to save a lot of water and a lot of money by revising your outdoor watering schedule.”

Here are some other ways you can incorporate more water conservation into your spring-cleaning routine and landscape preparation:

- In case San Diego gets some spring showers, make sure you clean out and redirect downspout gutters toward trees, plants and other landscaped areas. Mother Nature’s rain will then take care of watering your landscape at no cost. Prevent water from being wasted by turning off your irrigation system when it rains and keeping it off for several days after the rain.
- Delay regular lawn watering during the first cool weeks of spring to encourage deep root growth to make a lawn healthier for the summer. It’s also the perfect time to adjust your irrigation schedule. To create a free watering schedule tailored to your plants and lawn, visit the Water Conservation Program’s website at www.sandiego.gov/water/conservation to access the free Landscape Watering Calculator.
- If you are starting to plan for your garden, visit the Water Conservation Garden at Cuyamaca College for ideas on how you can create a water-wise garden that will be healthy and beautiful for the spring and summer seasons. The Garden has free admission and parking. For more information on the Water Conservation Garden, including hours of operation and special events, call (619) 660-0614 or visit www.thegarden.org.
- If you plan on cleaning your driveway, patio or sidewalk, remember to use a broom, not a hose. This will save up to 100 gallons of water and prevent run-off of pollutants into storm drains and beaches.
- Check the toilets, faucets, showers, and sprinklers for leaks, and replace valves as necessary. You can save up to 150 gallons a week for each leak. For a comprehensive inspection, sign up for the City of San Diego’s free Residential Water Survey Program. A trained surveyor will analyze both your indoor and outdoor water use, and will make recommendations as needed. For more information, or to schedule an appointment, call (619) 570-1999.
- While you’re cleaning out your bathroom, install a low-flow showerhead. This type of showerhead can save you up to 75 gallons of water per week.
- Cover your pool when it is not in use to prevent water evaporation. This will also prevent leaves and dirt from falling in.

“Try implementing a few tips at a time,” Robbins advised. “Before you know it, using water efficiently will be second nature to you.”

For more information about Water Conservation, visit <http://www.sandiego.gov/water/conservation> or call (619) 515-3500.

Help paint a river mural in Mission Valley

Here's a call for aspiring artists -- or anyone else who wants to have a fun time beautifying the San Diego River corridor.

The San Diego River Park Foundation is seeking volunteers to help paint a community mural on the river's northern bank in Mission Valley. The three-day project, April 3-5, will turn a parking lot wall at Mission Center Road and Hazard Center Drive into a cool piece of river-themed art.

Anyone wanting to help is invited to sign up for any of five time slots:

- **Friday April 3, 9 a.m.:** A guide grid will be laid out, and coordinators will direct sketching of the design with marking pens.
- **Saturday April 4, 9 a.m. - 12:30 p.m. or 12:45 - 4:30 p.m.:** Painters will begin filling in the sketched outlines.
- **Sunday April 5, 9 a.m. - 12:30 p.m. or 12:45 - 4:30 p.m.:** More fill-in painting will complete the mural.

Volunteers are asked to schedule shifts in advance with coordinator Richard Dhu at (619) 297-7380 or

Richard@sandiegoriver.org. Tools and supplies will be provided, along with water and snacks.

The San Diego River Park Foundation provided this artist's rendering (on pages of paper taped together) of the mural that volunteers will help paint in Mission Valley. The blue "ribbon" represents the river and its connection to people and places from the ocean to the mountains.

Frye welcomes Buddhist peace exhibit at City Hall

Donna received an award and was a featured speaker at the March 4 opening ceremony for a peace exhibit at City Hall.

The exhibit, “Seeds of Change: The Earth Charter and Human Potential,” was presented by the Soka Gakkai International Buddhist Association for Peace, Culture and Education. It is intended to illustrate the human potential for positive global change.

Donna was presented the association's Liberty Award at the event.

Shown for the first time at City Hall, the exhibit will travel to universities, schools and communities around the world to promote sustainable growth.

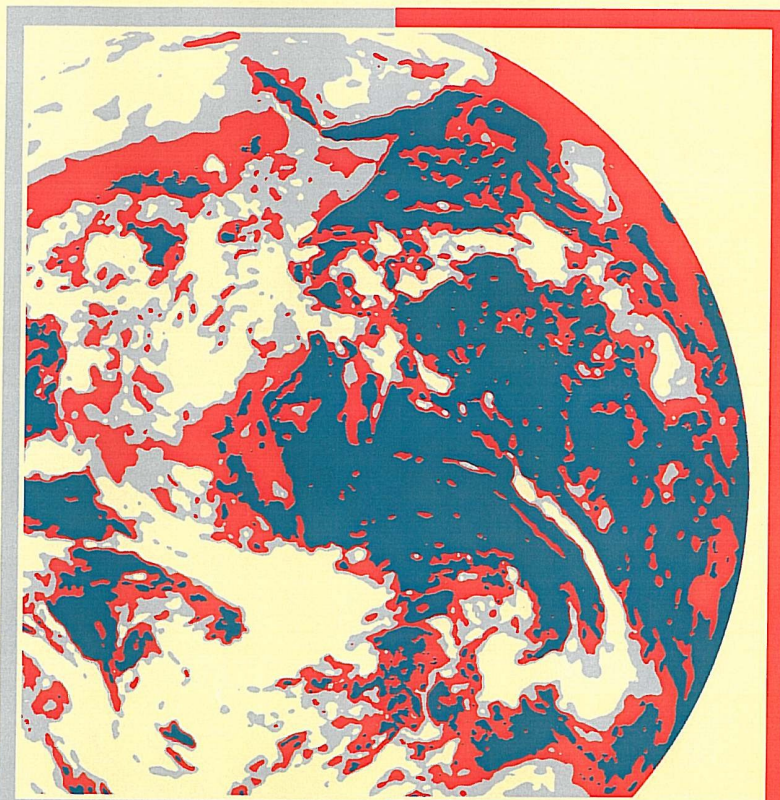

“We must recognize that in the midst of a magnificent diversity of cultures and life forms, we are one human family and one Earth community with a common destiny,” it states. “We must join together to bring forth a sustainable global society founded on respect for nature, universal human rights, economic justice, and a culture of peace.”

The exhibit features examples of individuals and groups taking action and making positive changes in their communities.

2nd annual Canyon Day celebrates nature's lure

If you're looking for a day of outdoor fun that's invigorating, enlightening and free for the whole family, then look no farther than Tecolote Canyon on Saturday, April 18.

San Diego Mesa College's Second Annual Canyon Day is a back-to-nature community celebration. It's also where you can learn about conservation, preservation, plants, birds and bugs — and get some fresh air and exercise in the bargain.

Activities begin at 9 a.m. and run until 2 p.m.

Besides guided, 45-minute canyon walks, there will be a children's activity area where kids can paint murals and rocks and make critters from recycled materials; a walk-about and workshop in the Mesa College Organic Garden; and talks about the history of Tecolote Canyon.

The center of activities will be near the corner of Genesee Avenue and Marlesta Drive, with free parking just up the hill in Student Parking Lot 1 (signs will clearly mark the way) and free shuttle service back down to the canyon entrance.

For more information, visit the Mesa College Web site at: www.sdmesa.edu/canyonday.

Time Warner Cable opens Clairemont store

Time Warner Cable of San Diego has opened a new store in Clairemont at 3051 Clairemont Drive.

District Six customers of Time Warner are expected to find the Clairemont location more convenient than the company's next-closest store in Miramar.

Additional information is available at www.twcsd.com.

Free programs at Mission Valley Branch Library

Yoga for Kids: April 6 & 20. Ages 2-3, 1:15 - 1:45 p.m.; Ages 4-5, 1:50 - 2:30 p.m.

Debt-relief seminar: April 8, 6:30 - 7:30 p.m., attorney Larissa Lazarus.

Weight loss support group: April 13 & 27, 6:30 - 7:30 p.m., trainer/nutritional counselor Veronica Hilas.

Book Club: April 20, 6:30 p.m., *A Long Way Gone* by Ishmael Beah.

Introduction to 3-D animation: April 22, 4 p.m., Platt College San Diego.

Crochet Circle for all skill levels: April 29, 6:30 p.m., Asia Bur-Min.
